- Draw a line across the top for the rim.

- Hollowing the Interior

- Reverse the bowl and mount it using a jam chuck or vacuum chuck if available.
- Alternatively, turn the blank around and remount on the faceplate.
- Use the bowl gouge to remove interior waste:
- Start at the center and work outward.
- Maintain a consistent cut angle for a smooth, even wall.
- Regularly check thickness with a caliper.
- Use a scraper to refine the interior surface, smoothing out tool marks.
