- **Modeling and Observational Learning:** Learning through observing others.

Mischel's Cognitive-Affective Personality System (CAPS)

Walter Mischel argued that personality is a pattern of cognitive and affective units that interact to produce behavior in various situations.

- **Situation-Specificity:** Behavior varies across contexts.
- **Encodings, Beliefs, and Goals:** Internal mechanisms that influence responses.

Integrating Theories for a Comprehensive Understanding

Strengths and Limitations of Each Approach

While each theory offers valuable insights, understanding personality comprehensively involves integrating multiple perspectives.
